Baptise at Bonspiel

De noder day a frien' of mine,
He say "Bateese" to me,
'W'y don' you go upon de rink
For see bonspiel?', say he:
"Dere's plency chair for sit upon
De place she's nice and warm"
And so at las' I tink I go,
She can't do me no harm.

Wall, dat is de mos' foolish game
I never yet did see,
For all dey men was yell so loud
I tink dey go craze.
Dey have de stone like big
spetoon

An' shove it wit' red han'
But w'y dey get so much excite
I can not understan',

De man down at de noder en'
Ees put hees broom down—so
And den, he yell "Now take dat
ice"—

Dat's foolish ting you know;
He can not tak de ice away
She's frozen down so hard,
But still he yell "Yes, tak her
out,

I do not want the gard."

An see dem feller sweep de
broom

For w'y I can not tell,
Dere is no dirt upon de ice;
An' den some feller yell
'Yes! Hold her up'—say w'at
he mean?

Madam's not here at all,
An' mam'selle in de gallerie,
I do not see her fall.

All sort of feller play dat game
Dere's some dat's t'in and long
An' some dat's maybe short an
stout,

An' some dat's pretty strong;
But w'en dey yell de stout man's
"wide"

An' man dat's long an' tall
He's narrow, sure," I do not
t'ink
I stan' for dat at all.

I wonder w'at dat name she
mean;

Well, "bon" in French she's
"good"

An' "spiel" in Scotch for make
beeg talk,

Dat's w'at I understood,
I s'pose she's sort of half-breed
name—

I spik de way I feel—
I watch dat game two-t'ree
night—
I tink she's mostly "spiel."

Arrowwood

Bonspiel Away to Good Start

The Bonspiel opened this morning with ideal ice. The following are the results up to time of going to press.

GRAND CHALLENGE

McIrvine 13 - - - Bowman 8
Chrestenson 12 - - - Vetrans 8
D. J. Beagle 13 - - - P. Norton 4
Hales 14 - - - Troy 6

MERCHANTS

J. P. Beagle 11 - - - House 9
Lewendon 15 - - - Phillips 5

The following are the rink taking part:

Moir
Norton P.
McIrvine
McHugh
Miller, Queenstown
Troy, Mossleigh
J. P. Beagle
House, Gleichen
D. J. Beagle
Bowman

Hales
McDonald, Gleichen
Chrestenson
Veterans, Gleichen
Large, Queenstown
Norton E.

Mrs. Saunders
Smith
Lewendon
Phillips, Milo
Cook, Mossleigh

Considering financial conditions the bonspiel prizes, now on display in Chrestenson's

store window, is a very attractive collection of useful articles any one of which would be well worth winning.

One of the best features of small town bonspiels is the non-commercialism feeling that prevails among those taking part. It isn't so much the value of the prizes that are up for competition as the pleasure of meeting your friends and neighbors in match play, knowing that should you win any of the prizes you have done so through good curling and being a good sportsman.

The weather man has again smiled on Arrowwood curlers and through the efforts of club members considerable work has been done on ice with the result that all members that helped can be proud of the two sheets of ice that should satisfy the most exacting curler.

During the Bonspiel the Rink and Club Rooms will be taxed to their capacity and every member should do his best to keep the ice clean, obey all rules and see that everything possible is done for the comfort and convenience of out of town rinks. They are our guests.

Bonspiel Prizes

GRAND CHALLENGE

First—4 Tea Trays.
Second—4 Pairs men's dress gloves,
Third—8 gallons of Autolene motor oil,
Fourth—4 sets military hair brushes.

MERCHANTS

First—4 Parker pencils.
Second—4 Sides Swift's Premium Bacon
Third—4 Miners Silk Scarves
Fourth—4 Berry Dishes
Consolation
First—4 Swifts Picnic Shuld-ers
Second—4 A. C. Spark Plugs
Third—4 Dressed Fowl
Forth—4 lbs. Tea

U.F.W.A. Meets at the Home of Mrs. Leonard

The U.F.W.A. met at the home of Mrs. M. Leonard on Wednesday, January 6th. The President was absent and Mrs. McBride presided. Resolutions to be brought up at the convention in Edmonton were voted for the benefit of our delegate. There were about fifteen members present.

The next meeting will be held on Wed., Jan. 27th.

Here and There

Maple sugar and maple syrup produced in Canada in the spring of 1931 had an estimated value of \$3,537,700 of which the former accounted for \$330,800 and the latter for \$2,606,900. The Province of Quebec is the largest producer in the Dominion.

Following a long succession of shipments in an experiment commenced a year ago, thirty-five cars of beef cattle, the bulk of them for British consumption, left Winnipeg recently by special Canadian Pacific train for the Atlantic seaboard for shipment to Great Britain.

Regular Meeting of Arrowwood Council

A meeting of the Arrowwood Council was held on Wed., Jan. 6th. Councillors present were, J. P. Beagle and M. R. Leonard. The minutes of the last meeting were read and adopted. The correspondence of the past month was then taken up, which included a letter from the Bureau of Child Protection of the province of Saskatchewan and a letter from the General Hospital. The letter from the Province of Saskatchewan was ordered filed.

The following accounts were presented and ordered to be paid:

R. R. Saunders, acid and containers\$14.40
A. H. Phillips, Hardware for Well house\$24.40
T. S. Board, salary and office supplies\$12.85

Moved by Beagle and Seconded by Leonard that the dog tax be the same as in the previous year which is \$1.00 for males, \$3.00 for females, and that the secretary insert notice in the local newspaper that the dog taxes are due and that they can be paid to him.

Moved by Leonard, seconded by Beagle that the secretary be appointed returning officer and that the annual meeting for the rate-payers be held on Monday, February 1st, 1932, and that he post notice to that effect.

The meeting then adjourned.

Another Big Success at Shouldice

Friday evening, the 8th inst, the Community Hall was filled to capacity with many supporters from all directions. Some who never fail to turn out and many others who were able to come from a distance due to the mild weather. This dance was, without a doubt, the greatest hit of the season and the management are very grateful to the many supporters for their kind patronage.

The first gent's prize was won by Mr. Lester Robinson, second by Mr. R. F. Williams. Ladies' first Miss Agnes Rubbelke, second Mrs. R. F. Williams, the judging of which concurred with general approval.

The music was exceptionally good and lost no time! Mr. M. T. Edwards discharged the duties of M.C. Dancing continued until 2 a.m. with everybody full of pep.

Watch for the next announcement.

Miss Ruby Ward and Miss Florence Holland were Shouldice visitors over the week-end.

"The Four Hundred" has long been synonymous for the people who do the right things. It is fitting, therefore that it should also be the total of the passengers on the first cruise around the world by the new wonder-ship "Empress of Britain", which left New York on December 3.

With the Canadian dollar where it is in the market, there is a marked tendency to keep it at home and many Canadians are spending, or planning to spend, the winter amid the beauties of British Columbia, instead of "going south". Fifteen per cent can mean a whole lot of dollars and the British Columbia coastline is one of nature's most beautiful spots, anyway.

Quebec Beckons Winter Sports' Devotees

Winter sports in wide variety; excellent accommodation and good company are the order of the day for those who make Canada's ancient Capital, the historic city of Quebec, their winter headquarters. Here, overlooking the mighty St. Lawrence River and set in surroundings of unsurpassed beauty, is a city whose history rivals that of the most storied capitals of Europe. On the site of the residence of the French Governors stands the great Chateau Frontenac, the Canadian Pacific Railway's world-famous hotel, the hub of all activities. True to its long-established reputation, the great hostelry is giving special attention to the entertainment of its patrons and several innovations have been added to the program for their comfort. In addition to the toboggan-slide on Dufferin Terrace and the hotel's great rink, curling rinks will be the mecca of the followers of roarin' game. The inner room of the Terrace Cafe will be devoted to a golf-school under a capable "pro". There will be badminton dancing every evening, and a costume-ball

is being planned for Washington's birthday, February 22. Thus the guest that this hotel of hotels will always be assured of plenty of amusement. Skiing, tobogganing, skating, snowshoeing and sleigh-drives will all be under the capable direction of Jack Strathdee, well-known winter sports' director, who already has a number of successful winter seasons at the Chateau Frontenac and elsewhere to his credit. Pictures show: the great hotel; The C.P.R. dog-sleigh and team; two fair skiers at the foot of the Champlain Monument just outside the Chateau Frontenac; and inset "Jack".

NORMAN G. CARY,
Editor and Publisher

"At the big Calgary bonspiel which will be held the week of January 18 to 23, a new rule has been put in force. Calgary Clubs will be permitted to enter only the usual club rinks in the various competitions. In other words there will be no packing of rinks except for "McDonald Brier" Calgary Herald, January 6th, 1932.

The wonderful runs that soft ball has had the last couple of years and the fact that a curling rink has become a necessity of every village indicates that community sportsmanship has not disappeared from the earth.

There is something of the gang loyalty coming to the fore again. We are told that there has been one corner of the earth where it has successfully resisted the encroachments of professionalism; that is Old Country Cricket. At least in some parts of the old land the ancient custom of squire and laborer gathering around the wicket has been preserved.

The word sport has so changed its meaning that we have now two distinct uses. When we open the "sport" page of the paper we find the record of paid players who display their ability for the entertainment of the public. Let us for the moment forget the word "professional" and coin a new term "theatre sport". But when we speak of a person being a "good sport" quite another idea arises in our minds. Such a one is a good companionable fellow who reacts satisfactorily to all society's varying moods.

A few years ago it was quite the fashion to rail at professionalism. But life deals harshly with opinions. It was as inevitable as the automobile. And to be honest we must face the question why has not a person as much right to earn his living by handling a stick on the ice as by handling a violin on the stage? And why have I not the right to pay my dollar to see a star play hockey as well as to see another play Shakespeare. For this reason we suggested the term "theatre sport". And from this angle rinks and ball diamonds must pay their way and yield dividends the same as in the theatre. And they do this by developing winning teams.

But there is the desire for fellowship as well as perfect execution and for playing the game as well as watching others. And this is the reason for the success of play-ground ball and curling. And it looks as if the promoters are beginning to see the difference in the two. The very nature of the game prevents curling from being popular with spectators. And more than one club has been all but wrecked by rink packing. So perhaps this game will yet provide what our social life has so long needed—an opportunity of playing together without the necessity of producing a winning team.

Health Service

OF THE
Canadian Medical Association

Edited by

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

Their Right Place

One of the most important considerations in disease prevention is the importance of what appear to be the little things in life. It is upon comparatively simple things that our health is largely dependent. What to do or what not to do with our hands, for example, plays an important part in deciding whether or not we will contract one or another of the common communicable diseases.

Provided our hands are kept in their right place and that they are thoroughly washed at the proper times, there is little or no danger to be feared from them. If, however, they are not kept in their right place, and if they are not washed before meals or before food is handled, then they are likely to be a source of danger.

The germs of disease do harm only after they gain entrance into our bodies. Their usual mode of entrance is through the mouth. In other words what we do, in general, is to eat them or drink them.

This type of disease germ leaves the body of the person who harbours the germs in his secretions. Most of the communicable disease germs with which we have to deal are found in the nose, throat and other parts of the upper respiratory tract. They leave the body in the secretions of the nose and throat. This is why it is that most of the communicable diseases with which we meet in Canada are spread usually by the transference of nose and throat secretions.

The hands of an individual are very apt to become soiled with these secretions when he is using his handkerchief. While it is true that, in most cases, disease germs die fairly quickly outside of the body, yet our hands not only become

soiled with our own secretions, but they are reached by the secretions of others in hand shaking and by means of the various articles which we handle so frequently in common with many others.

These disease germs on the hands are harmless as long as they remain there. Our problem is to keep them on the outside and not allow them to enter the body. In order to accomplish this, it is necessary to keep the hands away from the face. Hands that touch the lips or nose; fingers that go into the mouth, may carry disease germs. The hands should not go to the face excepting when the handkerchief is being used.

Another way in which disease germs may pass from the hand into the body is by means of food. Food which is touched by the hands receives whatever is on the hands, including disease germs. If such food, contaminated with germs, is later eaten without having been cooked, the disease germs gain entrance to the body. So we lay down as a rule for self protection and the protection of others that the hands are to be thoroughly washed before food is eaten or prepared.

These precautions which should be made habits of life are simple. They do not cost anything and yet they are worth a great deal as a means of protection.

The First Paper Money

The business of banking is of modern rather than of ancient usage. It may be of interest to know that in Canada was issued the first paper money for general circulation. At Quebec in 1685, under the French regime, the Intendant had not money wherewith to pay his soldiers. So left to his own device, being at his wits ends, and having a helpless people to

deal with, he cut playing cards into small pieces and wrote on them his promise to pay, accompanied by the seal France. For thirty years this was the current money of Canada. In the following year, 1686, a bank was established in Massachusetts. It appears that Massachusetts fur traders visited Quebec and, returning, reported the prosperity arising from the issue of this card money. Among the earlier banks were those organized in Philadelphia in 1781 and New York in 1784.

During the war with the U.S. in 1812, the government of Upper Canada, finding it essential to issue paper money, created an Army Bill office and the notes then issued were the first paper notes put in circulation in that province. The first bank in Canada was established in 1847.

Bible Class of United Church Elect Officers

The Bible Class of the United Church became an organized class on Sunday by electing the following officers:

President—Russell Shoultice
1st vice president—A. H. Tharle
2nd vice president—Wayne Cochran
Sec-tres—Mrs. G. Jones
Leader—Mrs. G. F. Kemper

THOUT BALANCE

Churn It Up

We've all heard the story of the bull frog that got into the pail of cream and was able to get out again.

He churned and milked about till he was sitting on top of the world—literally, the mound of butter.

We can all take that little fable to heart and profit by it. When times were good we just wallowed around in the "cream" and became really good order takers.

However, things have changed and we are all finding it hard to get business. But here is one way to start it coming our way.

Churn up the customers by sending out letters, personal calls, etc., and pretty soon you'll be like the frog—sitting on top

of the world.

—Service Promotion Division General Motor Products of Canada Limited.

In the New Year, put your best foot foremost and show the world you are a real optimist.

The world's fastest growing plant is said to be a fungus native of Hawaii. It increases in size so rapidly that its growth can be observed with the human eye.

One of Canada's most widely exported products is "canned salmon" which finds a market in nearly 100 countries.

Here and There

Grain plots ranging from 28 to 70 bushels to the acre are reported in Northern Alberta, according to information reaching the Agricultural Department of the Canadian Pacific Railway.

A tree-planting plan on a large scale to extend over a ten-year period has been inaugurated in Saskatchewan. It will cover the whole treeless part of the province and is to be started at once.

Establishing a new record for quick delivery, a shipment handled by the Canadian Pacific Express Company went from Southampton to Vancouver in nine days. It came over on the Empress of Britain to Quebec in less than five days.

The Royal York, largest hotel in the British Empire, recently staged the largest bridge tea and fashion show ever held when over 1,100 bridge tables were in operation and nearly 5,000 guests attended the function. It was held in aid of unemployment relief funds.

P. G. Wodehouse, world-famous novelist and humorist, will write his next novel aboard the Empress of Britain during the world cruise which starts December 3 from New York. It will be a continuation of the story of "Jeeves" who has already figured in several of his best sellers.

Butter production in Canada for the first seven months of 1937 increased 23,775,725 pounds or 15.5 per cent. over the production for the corresponding period of 1936. Exports in the same period were 5,145,600 pounds or nearly 4,000,000 pounds more than in the same seven months last year.

Certainly a seasonal, if not an all time record, for a lady big game hunter who recently established in New Brunswick when Mrs. Walter R. Peterson, of Nashua, New Hampshire, shot a moose, two buck deer and a bear during a hunting trip in the serpentine section of the Tobique district of the province.

Calfskin leather may eventually win favour with the lady of fashion for her handbag or shoes. Not until recently has a market been found for calfskin caught in Nova Scotia, but a firm of leather manufacturers in the United States has found that a soft and suitable product can be made from the skins of calfskin.

Radio is to be used for promoting correspondence school courses in Saskatchewan. This is believed to be an entirely new departure, though it has already been used as a medium of instruction for a prepared program by the Extension Department of the University of Alberta, for the past few years.

A free scholarship, entitling the holder to one year in Arts and four in engineering or to five years in architecture or McGill University is offered by the Canadian Pacific Railway Company, subject to competitive examination, to its apprentices and other employees under 21 years of age, and to minor sons of employees. The candidate receiving highest marks in subjects required for admission to the University will be awarded the scholarship. (786)

An Indian Schoolboy's band on which the leader was also a schoolboy and in which the instruments were mouth organs, gaccon and other noise-makers was one of the features of Indian Park at Banff which opened July 21. This was counterbalanced by a septuagenarian Chief's Choir of 18 chiefs and ex-chiefs who rendered airs taught by the first western missionaries back in the 1860's long before the Canadian Pacific Railway penetrated the mountains.

Six First Aid championships and five second places fell to Canadian Pacific Railway teams across Canada according to the recent annual report of the St. John Ambulance Association. Of these, three first and one second were captured by the Railway's "Montreal Police Team." The second was in the coveted Mountbatten Trophy, representing the championship of Canada for all comers in which they were only five points behind the winners, Royal Canadian Army Medical Corps of Kingston. (761)

Thousands of salmon recently "took the river" on their way to the spawning grounds in the upper sections of the Stump River, British Columbia, where they used the fishway built by the Canadian Government Department of Fisheries to overcome the tumbling waters at Stump Falls.

With the departure on October 1 of the big Canadian amphibious plane for Boston, the Pan-American Airways company has taken the vice between Boston and Halifax which was inaugurated August 1. In August, 70 passengers were carried on the southbound trip and 67 northbound, in 15 flights.

Skating Schedule

All school children under 10 years of age to be off the ice at 8 p.m.

All school children any age to be off the ice at 9 p.m.

MONDAY.

Childrens skating—3.30 to 5 p.m.

Children 10 yrs. and over 7 to 9 p.m.

Senior hockey practice—9 to 10 p.m.

TUESDAY.

General Skating—7 to 10 p.m.

School children—7 to 9 p.m.

School children 10 yrs.—7 to 9 p.m.

WEDNESDAY.

Junior hockey practice—3.30 to 5 p.m.

General Skating—7 to 10 p.m.

School children—7 to 9 p.m.

School children under 10 yrs., 7 to 8 p.m.

THURSDAY.

Senior hockey practice—7 to 8 p.m.

Adult skating only—8 to 10 p.m.

FRIDAY.

Children—3.30 to 5 p.m.

School children—7 to 9 p.m.

Public skating—7 to 10 p.m.

SATURDAY.

Junior hockey—10 a. m. to 11.45 a. m.

School children—7 to 9 p.m.

Children under 10 yrs.—7 to 8 p.m.

Public Skating—7 to 11 p.m.

SUNDAY.

Public skating—2 p. m. to 3 p. m.

There will be no skating before senior hockey games.

WARNING

Any unruly conduct on rink premises will be penalized by offenders not being allowed on the ice. Length of time to be determined according to the offence.

There are 32,209 schools or colleges in Canada, taught by 2,144 teachers and attended by 2,460,023 pupils, or one quarter of the Dominion's population. The average expenditure is about \$66 on each pupil enrolled. Attendance is on the up grade, being 77 per cent for the whole Dominion, against 64.7 in 1919. And the future of technical education is assured, for the Technical Education Act provides for Federal grants of \$700,000 per year for 16 years, which means that the night schools will be able to run, to say nothing of the day courses in technical institutions. (786)

Here and There

In 1930 the Canadian Pacific Railway paid in taxes for the year 1931 \$7,447,695 and for the year 1932 \$7,447,695. This brings the company's total tax payments in Canada from its incorporation to date to more than \$11,000,000.

Jim London, world heavyweight wrestling champion, on a recent trip into the New Brunswick woods, bagged a black bear, weighing 800 lbs. The animal, wounded by two shots, charged London who dropped his rifle and resorted to a knife with which he killed the bear.

Nova Scotia is coming into its own as a holiday province. In 1931 more than a quarter of a million tourists visited the province, the largest number of summer visitors in its history, according to records by Hon. P. C. Black, provincial Minister of Highways.

To have joined the Canadian Pacific Railway at the time of its organization in 1911 and in the last seven years to have attained a higher rank, than any other employee in the Dominion, is the record of the late Mr. J. H. Macneil, of the position of Chief Engineer for the Motive Power department at Montreal.

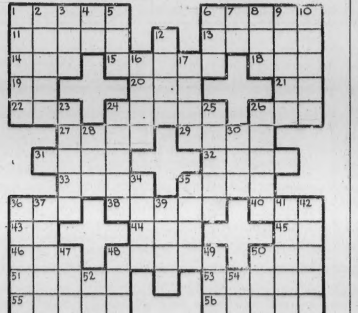

The Brockville Recorder in a recent editorial urges all Canadians who are able to do so, to be laying outside the Dominion this winter to consider the advantage of the Dominion's climate. The Canadian dollar stands at par and where the climate is the equal of any to be found in the United States. Great Britain, the editorial adds, has set the example for Britons which Canadians should be patriotic enough to follow.

The high reputation of Canada for the Pacific settlement of disputes with foreign powers is an example that serves considerable influence in the councils of the League of Nations and indicates that the Dominion should play an important part in the coming disarmament conference at London. Says Colonel David Carnegie, C. B. In a recent lecture on the promotion of peace, who recently visited the Dominion, he said the Duchess of Richmond.

Beginning their first Canadian tour, the ski teams of the Universities of Montreal and Cambridge, arriving at Halifax by Canadian Pacific train, will spend a week on a visit to the University of Montreal to Lucerne in Quebec and from there will visit the ski resorts in the Laurentians where they will contest against other teams with Canadian universities. The teams were welcomed at the Windsor station, Montreal by Lord Dunsannon, son of the Governor-General, himself an undergraduate of Cambridge University.

Montreal, Windsor station First Aid Police team being the 1931 Canadian Pacific All-Lines champions having defeated the western champions of Nelson, B.C., by 124 points in the finals recently decided. The Police team have won every First Aid competition in Canada possible for a police team to win, including the Quebec Provincial Championship, the Shaghehewen Shield, representing the championship of Eastern Canada and the Sherwood Shield emblematic of the police championship of Canada. Twelve hundred colonies of screened bees and their accompanying queens from the Province of Alberta to China was the unique feature of the Canadian export trade to the Orient and of the shipments aboard the Empress of Russia recently. The European and American bee produces nearly twice as much honey as its Asiatic brother that has been exploited by the Chinese since the time of Confucius. (799)

Want Adv'ts

Advertisements under this heading are charged for at the rate of 50c for 25 words or less per week with 10c for each additional 5 words. Three weeks for the price of two.

WANTED—News from each point in the district—community, church or school.

Fire! Fire! Did you know that fire attacks a dwelling every 4 minutes? Is your home protected by a dependable policy? See Omer Larsen.

Melvin Bowman is as confined to his bed due to an injury to his leg sustained in a basketball game, before Xmas.

Mrs. Greer and son Garnet Miss Jarvis and Mrs. Guy Lock of Calgary were Arrowwood visitors Sunday.

The Ten Curling Commandments

1. Thou shalt have no other game before me, for I, am the roarin' game which was in the beginning, (even in the store age), is now and ever shall be.
2. Come not unto the ice with the old house broom. Thou canst not quicken the pace of a dying rock with a last years broom.
3. Thou shalt learn thy turns, both the in and the out for the skip will not hold him guiltless who throweth a wrong turn.
4. Play not a running stone when thou art asked for a guard, lest thou raise thine own shot, so sending thy skip in the air; such play getteth his goat, queereth his game, cause him to swallow his gum, and to revile thee openly.
5. Thou shalt harken diligently to the defeated skip when his voice is lifted up in lamentation against the punk ice, and thou shalt not turn thy face from him when he blameth the third man. Even so shalt thou secure a listener against the day of thine own defeat.
6. Thou shalt not strew straws from thy broom in the path of thine own or thine adversaries' rock. Nor shalt thou spit in front of them, causing them to become pork, for even as pork is an abomination to the Jews, so also is the hog in sight or the skip.
7. Thou shalt not discourse with thine adversary while his foot is in the hack, and his hand is on the rock, but if thou wilt, thou can pray for him.
8. Thou shalt not push or kick a rock into the house from behind stealthily, for the opposing skip will know of a surety and his anger will be kindled against thee, and he will rise up in righteous indignation over thee, and he will smite thee, even with the edge of a broom handle, and thrust thee hence from the sight of the curlers, and the days of thy curling will be ended, for this unpardonable sin.
9. Thou shalt not covet thy opponent's rock, nor his broom nor his lead player. Neither shalt thou filch from his third man who is his mainstay, and wall of defence in the day of battle.
10. And when thou comest to the last end and hast won the game, and hast still a rock to play, and thou playest with great deliberation, and thy rock gambols down the ice, sailing jauntily round the guard and through the port, and wicketh the shot rock and thou comest down the ice in fear and trembling, and art hailed by the enemy as a good sport and curler, and by thine own side with groans and murmurings, and find thou hast peddled the game away, thou shalt find the proffered hand of thine adversary and wring it, even if in thine heart thou wish it were his neck

Vol. 1, No. 22 Arrowwood, Jan. 14, 1932 Items for Thot

Bonspiel

This seasonable weather has induced the Arrowwood curlers to put on a bonspiel. The merchants and farmers have offered some very attractive prizes. As this is not a very busy time of the year let us all get-together and give this clean winter sport our undivided support. Here's hoping the weather man will continue to favor us with keen ice.

While attending the Bonspiel you will always find in our place a welcome to you to wile away your loafing hours between games, in fact a visit from from you will be greatly enjoyed by us.

These icy highways make traveling rather dangerous but it is made doubly so if you are traveling on "bald headed" tires. Change your tires before something drastic happens and may be a financial gain as well as a safety precaution.

You know the story about the two lovers who attended church on Sunday. While the collection plate was being passed the young man searched his pockets and finding nothing whispered to his sweet heart, "I haven't a penny. I changed my pants."

Meanwhile the young lady had been searching her hand bag, and finding nothing, blushed a rosy red and said: "I'm in the

same predicament."

The 1926 dollar is now worth \$1.50 in buying clothes, \$1.38 in purchasing foods, \$1.29 in building a home and \$2.19 in replacing worn tires on your car.

Tire prices are the cheapest in history. Back in 1920 your tires cost you a cent every two miles, to-day your car will go over 20 miles for that cent. Why put it off any longer before changing those old "bald headed" tires for new ones and when you do change make it Firestones.

After the "close of each day's bonspiel games and you are ready to leave for home and find that you have a flat tire, or low on gas or oil or whatever it may be, we will be only too glad to fix you out.

Here's wishing you all the best of luck and may you win many games in the 'spiel, except those against us as we expect to there too.
